### **COMMUNISTS AND CO-EXISTENCE**

The Communists continue to make a great display of their devotion to the doctrine of "Co-Existence." It is a mistake to believe that they are simply hypocritical when they do this. The problem is that to them the world, Co-Existence, means something quite different from what it means to the average American.

Reduced to its essence, Co-Existence to the Communist means the Capture of America by SURRENDER.

The objective of Communism is not the conversion of the American people to Communism. There is small comfort in the fact that the membership rolls of the American Communist Party are not bulging. If every Communist in America were expelled permanently to Russia, the program of Communism for the conquest of America would be slowed down but certainly not stopped.

The program of Communism is not the destruction of America in an atomic thermo-nuclear war. A radio-active heap of rubble would not suit the purposes the Communists have mapped out for America. They desire to secure intact the American homes, factories, schools, churches and other achievements of the American system of Free Enterprise. They have great masses of people to locate in these facilities. After the surrender of America, it will be relatively simple to dispose of the American people group by group in the manner deemed desirable at the moment.

The formula of Co-Existence is "Encirclement plus demoralization equals surrender." The encirclement is fivefold: Numerical, Military, Economic, Educational, and Psychological. This encirclement proceeds at a frightening pace. The recent riots in Japan and the dire situation in Cuba are symptoms of this disease of developing encirclement.

The advocates of surrender are gaining ground every day. At present they are primarily located in higher educational and liberal theological circles. The argument advanced is that it is preferable to accept temporary slavery under Communism than risk the annihilation of all mankind in an atomic thermo-nuclear war.

This is a false dilemma. This is not the choice confronting free peoples. The choice is surrender or dedication to God and freedom.

To thwart the Communist objective of conquest, both the external encirclement and the internal demoralization must be halted. To halt the demoralization, there is desperate need of a revival of pure religion. An immediate contribution to this can be made by the personal rededication to Christ of every individual reading this article. "If My people, who are called by My name, will humble themselves and pray and seek My face and turn from their wicked ways, then will I hear from heaven. I will forgive their sin and will heal their land." This is the promise of our God.

To stop the encirclement we must reach the masses of mankind with the message of Truth. At present they are being deceived by subtle Communist propaganda and ensnared into the Communist trap. We must reach them with the Trust of Christ and Freedom.

The Christian Anti-Communism Crusade is meeting this challenge with a practical program presented by dedicated, enlightened Christians.

Three strategic areas of encirclement are: Central America, India, and Japan. We are at work in these three areas, and we present the following reports outlining the needs of the areas and what we are doing to meet these needs.

### **DR. JOOST SLUIS VISITS CENTRAL AMERICA**

Dr. Joost Sluis is an orthopedic surgeon. He is the regional director of the Northern California Chapter of the Christian Anti-Communism Crusade. He is a graduate of Massachusetts Institute of Technology and Harvard Medical School.

He is married. His charming wife is Lois, and their three children are Annie, Billie and Jimmie.

Dr. Sluis here reports on his recent visit to Central America made in the interest of combating Communist infiltration:

"From late may until early July, I had the privilege of making a trip through Central America, parts of South America and the Caribbean area. The main purpose of the trip was to explore the nature, pattern, and extent of Communist influence in these countries and to try to do something about the continuing external encirclement of the United States by international Communism. I visited major cities in Mexico, Guatemala, El Salvador, Costa Rica, Panama, Peru, Ecuador, Colombia, Curacao, and Trinidad. Jamaica, as I am writing, is the next stop before I return to the United States. The method of approach was made as flexible as possible and consisted of contacting individual educators, doctors, Christian people of all kinds, businessmen, local folk and groups. I am most grateful for the opportunities which the Lord provided and for the warmth, generosity, and hospitality of many individuals in these countries.

### **Increase In Communist Strength**

Most people, whom I met, agree that there is evidence of a general increase in Communist influence in each area and especially since the rise to power of the Castro regime in Cuba. Some are deeply concerned about this, but many appear unconcerned or indifferent.

### **Communism In the Universities**

A major field of influence and recruitment by the Communist Party is the student body in the colleges and universities. Latin American universities are rather loosely organized; academic discipline or supervision is often lacking and personal guidance or counseling for students is generally poor. The university government is often controlled by students, rather than by the faculty or state, and academic standards in several countries are falling. Not long ago, a general student strike occurred at the University of Guatemala because a proposal was adopted which denied a student the right to repeat a course after he had failed five times. Last year, 19 student strikes occurred at the University of San Marcos, usually about insignificant issues. The college atmosphere is fertile ground for any ideology and students usually play a major role in political uprisings, as in Guatemala's revolutions and last year's disturbances in Panama.

I met and spoke to six university level student groups in Mexico, Guatemala, Costa Rica, Panama and Colombia. There is clear evidence of Communist activity on each campus through actual Party members, Communist cells or more indirect means. In meetings with students in Costa Rica and Panama, I was told that many accept the Marxist doctrines of class warfare and that the United States had grown rich by exploitation of the people of Latin America.

### **Communism Deludes Christians**

One member of a Christian student group was also a member of the young Communist league and proudly told me that he had been chosen to represent the latter at a Cuban youth rally in July. We debated nearly two hours, especially about Communist economic determinism, and about the fact that Christ died because God regards every individual as of infinite value. One of today's great tragedies is the ruthless exploitation of the idealism, hopes, and aspirations of our young people by a highly disciplined and organized small group.

### **Economic Problems**

The social, economic, and political problems are great and vary considerably from one Latin American country to another. The problem of illiteracy appears greatest in Guatemala City, are illiterate. Eighty-five per cent of the population lives outside Guatemala City. The percentage of illiterates is actually rising because of the population increase. Rather sharp racial distinctions are evident between Latins and Indians in Guatemala, between Ecuadorians of Spanish descent and Indians in Ecuador and between Negroes and East Indians in Trinidad. The contrasts of considerable wealth and extreme poverty are evident, particularly in Colombia and Ecuador, although in the former there is a growing but still small middle class. Hostility between religious groups is more apparent than in the United States. Many Christian churches are doing an outstanding job in these countries but the existing problems are often staggering.

### **Communist Propaganda**

Beautiful Communist magazines appear on many news stands, especially in Mexico and Colombia. In Mexico, the Communist literature reaches Indian tribes as small as 250 via the mails. A "Russian" weekly radio broadcast is said to be directed to the Ciuchau Indians of Ecuador in their own language. In Guatemala, a "Russian" representative was

recently fitting the Indians in the rather remote town of Tactu with eye glasses.

### **Medical Work**

Members of the medical profession everywhere extended a most cordial welcome and I made rounds and saw patients in nearly every country. It was very instructive to see many cases of individual tropical diseases and to learn that the infant mortality for the first year of life in Guatemala is over 50 per cent. Many severe, orthopedic deformities are seen in late and neglected cases. Certain American doctors are doing remarkable work in remote areas with minimum facilities.

### **Socialist Trends**

The tendency in most countries is toward the nationalization of industries. A nationalized bank in Costa Rica recently lost over \$2,000,000 in an unwise coffee deal and the government power company has had to increase its rates greatly with resultant considerable public complaints. Many governments in power tend to be unstable, rather dictatorial and hence often unwilling to undertake long term projects for the welfare of the country as a whole. The development of private industry, either foreign or domestic trends therefore to be difficult. Anti-American feeling exists but varies considerably.

### **Program**

The problem of Communist advance in the Caribbean, Central and South America is a serious one. In every country I visited, there are people with a love of Christ and genuine concern for the people's spiritual and material needs. The need is urgent and great to impart to them a depth of knowledge about the basic nature of Communism and to try to help in their varied local problems. A group of American students is beginning this summer to distribute 10,000 copies of Dr. Schwarz's book, "The Heart, Mind, and Soul of Communism" in Spanish throughout Mexico. We need to develop Spanish films, simple literature, radio and TV programs.

The opportunities are great and unlimited. I hope many of you will join me in prayer for Central and South America and that you will be led to give of yourself and your resources for the great tasks that lie ahead."—Joost Sluis, M.D.

## **THE VOICE OF KERALA**

George Thomas, publisher of the daily newspaper, The Voice of Kerala, in India, received his Ph.D. from the University of Washington after five years of study there. His brothers, Joseph and John, are following in his footsteps by studying at the same university. The following account of the work of the daily newspaper we have been privileged to assist in India is given by Joseph Thomas:

### **Voice of Kerala: A Modern Day Miracle**

1957 was a crucial year for the Republic of India. A Republic that had drawn up a constitution upholding democracy and democratic rule. Did it operate under democratic rule and practice? Yes, indeed! Elections were held in a purely democratic manner. All fourteen states elected representatives to govern their respective states and all were democratic, with the exception of Kerala, in the southwest corner of India. Kerala, the most beautiful, the most fertile, and most heavily populated of all, with over a million highly educated and skilled inhabitants among the unemployed. A state rich in Thorium, the highly expensive but most useful element used in atomic experiments, and yet – a state with such abject poverty that little use was made of their natural resources. A state with too little land to till that there might be rice and other life-giving foods to feed the hungry multitudes. What happened?

In 1957 the Communists were elected to office by popular vote. Never before in the history of Communism was their party elected to office through democratic means. Aggression and violence had been their usual tactics. But in Kerala, the Christians, Hindus and Moslems alike were uninformed about the dangers of Communism. They unanimously accepted without doubt, the promised Utopia. The Communists took advantage of the poverty and made glowing predictions that brought about the overwhelming victory.

Two years elapsed after their election but not without events. They strengthened their party machinery by forbidding law enforcement officers to intrude when political arguments arose. These men were ordered to become deaf and mute to any heated discussion or violence. It was quite obvious that their reason for this step was that invariably, one of the two parties in question would prove to be the Communist. This was their opportunity to redress their sorrows and to achieve their rights among the democratic people.

Text books that eulogized Mao and Khrushchev were introduced which made fertile soil for the seeds of Communist propaganda. Every chance was seized to promote their cause. Criminals were released from prison and

allowed to terrorize the citizenry. In place of the promised Utopia, Kerala became bedlam. Demonstrators voiced their disapproval on streets, but those in authority refused to give a listening ear to their complaints. Violence was resorted to and 150,000 were arrested, others killed in street fights, and thousands beaten unmercifully by party members. On one occasion 17 people were killed when crowds were demonstrating protest in the 'passive resistance' manner of Ghandi.

It was in such a setting that the "Voice of Kerala" came into being. It was immediately labeled "capitalistic enterprise," by the Reds, but the history of this daily newspaper is unique. God provided the capital through His humble servant, Dr. Fred Schwarz, and Dr. George Thomas became the Editor-in-Chief.

The daily output of the "Voice of Kerala" grew from 10,000 in August, '59 to 28,000 copies at the present time, with a reading coverage of ten times that number. Statistics indicate that at least 10 persons read each copy of the "Voice of Kerala." Every day of the week the "Voice of Kerala" penetrates into the homes of Hindus, Roman Catholics, Moslem and Protestants alike with its three-fold objective: Education, Dedication and Evangelization for Christian freedom and democracy.

Kerala is a highly literate state, nine out of ten children in Kerala attend school and 60% of the people read and write their own Malayan language. The motto of "Voice of Kerala" is "Truth be Victorious" and Communist literature and propaganda is replaced by its readable and lucid articles. The "Voice of Kerala" excels all papers in Kerala state in both content and quality and has a profound influence upon the lives and thinking of 280,000 people now.

This direct and indirect influence upon the masses of Kerala was evidenced last February 1<sup>st</sup> when the people again marched to the polls to elect a governing body. This was permissible because of the timely interference of Prime Minister Nehru, who visited the restless state and ousted the Reds from office. This was an undreamed of miracle and brought hope and courage to the depressed. On election day, the congress party won with a 57% majority over the eager Communists. The margin was uncomfortably narrow and since that day the Kremlin supporters have used every diabolical device and cunning craftiness to erase past injustices from the minds of the people. They advocate the theory that with time, the people soon forget the cruelty of their oppressors.

A notable question is often quoted: "What are you doing to improve the economy of the people?" That has proven a colossal problem in Kerala. With over one million educated people eking out a living by doing menial tasks, or wholly unemployed, plus the millions of illiterates who are likewise unemployed the situation is grave. The "Voice of Kerala" has somewhat scraped the surface in this matter as a gallant crew of over 120 employees working inside the plant. These one hundred and twenty support 1,200 persons. Aside from these men, agents numbering more than five hundred support ten times their number. Indirectly several other groups are supported or partially supported in the dispensing of "The Voice of Kerala." This is a greatly appreciated contribution to the state economy. An endeavor is underway at this time to create small economic units that make themselves self-supporting.

How is this being done? The answer to this question would make the average publisher blush. The machinery and methods used at present are primitive and unsatisfactory. The need for a Rotary press is urgent. If the above benefits could be produced with antiquated and outdated machinery, what could be accomplished if a Rotary press were obtainable?

To crown all these efforts, the only solution to the problems of the world is Jesus Christ, the Son of the Living God!

With this in mind, the "Voice of Kerala" presents a Gospel message every Sunday. Homes that have been closed to other attempts to present Christ are open for this printed matter. Over 700 letters of inquiry were received at Voice of Kerala headquarters in a 7 month period of time. A full time Evangelist is employed to correspond with those who desire to know Him. Follow-up work is handled methodically and every 6 months a new church body is born for the Kingdom of God. Is this not marvelous and rewarding for our sacrifice?

With all humility, I boldly say that this work in South India is the greatest Evangelistic endeavor of the 20<sup>th</sup> century to be shouldered by an organization like the Christian Anti-Communism Crusade. Eternity alone will reveal the extent of their endeavors.

## **REPORT ON JAPAN**

The dramatic events leading to the cancellation of the trip of President Eisenhower to Japan are still fresh in our minds. A mob of 1,000,000 rioting in the streets is a fearful sight. The student groups is always the most successful field of Communist agitation. The Rev. James Colbert, Director of Missions of the Christian Anti-Communism Crusade, on his recent 'round-the-world trip, visited Japan and was overwhelmed by what he saw. The following are extracts from a letter he wrote to a friend after his return:

"Japan is like a new land awakened for the first time. As you know, it was destroyed twice, once by earthquake in 1923, and by allied bombers in 1945, yet, it has rebuilt into an industrial giant and business is booming. Since World War II, Tokyo has become the largest city in the world. There are ten million people who live in Tokyo and twenty-six millions who live in the environs of Tokyo. The Japanese students become the compassion of your heart. They spend most of their time studying. They live for an education, not so much to improve themselves culturally, as to give themselves a better chance for employment and economic improvement.

"Suicide is the greatest single cause for death in Japan and 80 per cent of the suicides are among the student class. In a religious survey they determined that 85 per cent of the college students had no religious convictions. They polled a Buddhist seminary and found that only 35 per cent of the students of the seminary had faith in Buddhist religion. It seems that this is a generation of no faith. Since World War II there has been a great deal of confusion. The young people are no longer faithful to the old ways. They are dead game for the Communists, and the Communists have gone to the campuses of Japan. They are buying up every opportunity. They are disseminating Moscow-spawned propaganda and are attempting to build Red cells. The students of Japan are not making hasty decisions, but they are listening and thinking. If this program of godless Communism continues uncontested, Japan will fall into the hands of Communism. The bright side is that these young people, who are listening and thinking, are just as susceptible to truth and Christianity and the message of Christian liberty. In Tokyo alone there are 250,000 college students. They are untouched by adequate messages to expose the true nature of Communism and presentation of the Christian message on college level. This is a project we want to undertake.

"We have contact in Tokyo with a Christian group name the Inter-Varsity Christian Fellowship which has quarters near the university center where 120,000 students pass each day. If we can place the tools in the hands of this fine Christian group, they will be able to do an effective joy among the many thousands of students in Tokyo. I hope that this initial project will commend itself to your people. At a little later date we are hopeful of publishing a daily newspaper based upon Christian principals resenting the truth for circulation among the students of Japan."

### STUDENT RIOTS

It is not only in Japan that the Communists have been successful in fermenting student riot, they were successful in fermenting riots in San Francisco when the Un-American Activities Committee of the United States House of Representatives held hearings in that city. Here is an eye witness account of these riots prepared by seven ministers who attended the sessions:

(A joint statement by Dr. G Archer Weniger, of Oakland, Rev. Don Watson of Oakland, Dr. H Austin of San Francisco, Rev. Robert F. Hakes of Alameda, Dean William G. Bellshaw of the San Francisco Baptist Seminary, Dr. H. O. Van Gilder of the Western Baptist Bible College, and Dr. Arno Weniger of San Francisco).

More than a dozen ministers were in attendance at the Congressional hearings of the House Un-American Activities Committee in San Francisco on May 12 and 13, in the Supervisors Chambers in the City Hall. What we witnessed was utterly fantastic. The shameful demonstration against law and order and against this duly constituted Committee of the Congress defies description. We sat in the rear of the room on a raised platform where we could easily observe the proceedings, right in the midst of the student demonstrators. We studied the crowd carefully for hours and could easily discern which were the masterminds of the mob riots. It is our certain conviction that this indefensible demonstration against law and order was conceived, planned and directed by a few hard-core Communist agitators who were carrying out their text-book orders on insurrection with classic success. Leaders of the mob included faculty members and well-known leftist lawyers for the fifth-amendment Communists.

We were sitting where we were able to observe the giving of instruction by the riot leaders who had gained access to the room. The "Daily Californian," which was distributed widely at the scene, gave explicit instructions on the front page of the Thursday issue on exactly how to harass the Committee. They were told to laugh out loud at every incident that appeared to be amusing in order to make the Congressmen look ridiculous. These well-disciplined mobsters laughed on the dotted line and obeyed their masters to the last jeer. We watched a national committeeman for the Party line up a dozen Communists near the railing and throw every sneer, invective, abusive language, vile profanity, and fiendish charge at the Congressmen they could conceive. For nearly fifteen minutes at one point, this lawless crowd of students from the University, together with Party cadres, had the Chambers almost in their control. The students, comprising the rear third of the audience, stood up on their seats and yelled, jeered, hissed, and scoffed at the Congressmen. It was almost complete breakdown of law and order. We witnessed more violations of the law in fifteen

minutes than we have seen in fifteen years! The only criticisms we have of the police authorities were of allowing this element to make such a mockery out of law and order, without jailing everyone of the leaders.

The height of their devilish hypocrisy was reached when they had the consummate nerve to profane the national anthem by singing it at the peak of their demonstration, and giving expression to their treasonable delight by singing "Mine Eyes Have Seen the Glory of the Coming of the Lord." The depth of their deceit was reached when this mob element put their hand over their heart and pledged allegiance to the flag. We shall never forget the hiss and goos that greeted Mr. Arens when he first mentioned the name of God in connection with one who broke from the Party.

We are at a loss to understand how clergymen, such as Bishop James Pike, could give any aid and comfort to this lawless kind of activity by statements deriding the Committee, and by allowing his assistant pastor to address one of their despicable rallies.

We came away from this hearing absolutely convinced of the overwhelming necessity of continuing the House Committee on Un-American Activities. No free agent could view the language without being impressed with the fairness, justice, and dedication to a thankless, but positively necessary task. Chairman Edwin Willis was unusually temperate and patient. We have nothing but unbounded admiration for Richard Arens, Committee Counsel, whose skill and understanding of this perilous conspiracy was a blessing to behold. We apologize to these devoted public servants from Congress for the devilish and deceitful conduct of an infinitesimally small but, alarmingly arrogant segment of this area, who are willing to be tools of the Communist conspiracy which would make a shambles out of the liberty which marks this great nation and the land of the free and the home of the brave.

### **Film of the Riots**

These riots have been recorded on film. A magnificent film production has been produced by the Coalition of Patriotic Societies and is entitled "Operation Abolition." I do not know when the viewing of any film has moved me as much. My first reaction was to order the purchase of several for the use of our Crusade. In this film the Communist leaders of the riot are shown in all their arrogance of evil and are identified by name and record. Contact us for further information concerning the showing of these films.

### **STUDENTS FOR FREEDOM**

American students can respond to the challenge of freedom as well as to the challenge of Communism. High school groups are springing up in many areas of the country under various names but all seeking to retain the American heritage of freedom. One such club is the Veritas Club of Lubbock, Texas. They are students at the Lubbock High School. Here is a photograph of the three top officers: Roya Harris, Danny Hood, and Barbara Stone.

Below is a portion of a report on this group published by the Lubbock Sunday Sun, June 5, Lubbock, Texas.

#### **Teen-age Group in Lubbock Forms Truth Club to Combat Communism**

"Encouraging evidence that today's youth is fully awake to the dangers of Communism, and is determined to do something about it, is being given by a group of Lubbock teen-agers.

"The group has completed an organization which has been given the name "Veritas" club. "Veritas" is a Latin word meaning "truth." Its purpose is to do everything possible to insure that older teen-agers today are fully informed concerning the true objectives of Communism. Those basic objectives include the enslavement of the free world by the Communist dictatorship centered in Moscow.

"Although the club has held only two regular meetings, it already boasts a membership of more than 40. Most of the members are boys and girls who will be juniors and seniors in the Lubbock high schools in September."

We may take satisfaction in the formation of this group as indicated by the following report from Bill R. Neel of the Amicable Life Insurance Company, Lubbock, Texas. "You will notice that the main portion of their emblem is the 'Cross of Christ.' Their meetings are conducted in a 'Christian atmosphere.'"

### **ANDHRA STATE**

Our work continues in the State of Andhra as well as Kerala. It is here we were privileged to start the Indian Christian Crusade under the leadership of Devananda Rao. Concerning the situation there he writes:

"Most probably within 18 months we are going to face a great danger! That is our General Elections for the State Governments and the Central Government. As you know, the Communists are

concentrating their work in Andhra State and West Bengal State to capture them during the next elections. And, if we, Andhras, sleep these 18 months, I am sure that the Communist Government would definitely rule us with all their brutality and murders. So, during our recent Crusade Workers' Conference we have decided to work more actively in this line to save our home State from this great danger of Communism. As you know, there are about 29,000 villages in our greater Andhra State with 20 districts. It is my firm and burning desire to reach as many villages as possible with the Anti-Communist message explaining the heart, mind and soul of Communism that innocent villagers would clearly understand that they might defeat Communism. We are planning to reach these thousands of villages before the devil, Communism, spoils the precious minds of these hundreds of thousands of villagers."

## **WHAT IS THE CHRISTIAN ANTI-COMMUNISM CRUSADE?**

One of the most frequent questions that we are asked is "What is the Christian Anti-Communism Crusade, What is it doing, Who is associated with it, How can I join it?" This letter is an attempt to give a brief answer.

The Christian Anti-Communism Crusade is a non-profit organization incorporated in the State of Iowa, dedicated to waging relentless war against the heart of Communism and its false foundation in relation to God, man and freedom. It is Christian and unashamedly adheres to the traditional Christian doctrines of the Bible. Its program consists of education, evangelism and a challenge to personal dedication to the cause of freedom.

The Christian Anti-Communism Crusade has had a rather unusual development. Most organizations begin with financial backing by well-known national officers. In our case, the reverse has been true. We began very humbly in the year 1953, and have grown step by step as here and there individuals have heard the message had have been the ministry and became aware of its value and associated themselves with it. Our work involved publication of a considerable number of booklets, one of which is "The Heart, Mind, and Soul of Communism," which has been translated into many languages and taught in schools around the world.

We are utilizing radio and as many media of communication as possible in our work.

From time to time we conduct Anti-Communism schools to equip students with the knowledge necessary to adequately oppose Communism and preserve freedom.

A complete set of my booklets consisting of The Heart, Mind, and Soul of Communism, Communist Interpretation of Peace, The Christian Answer to Communism, Communism—Diagnosis and Treatment, will be sent to you for a contribution of \$2 or more. Requests for these should be sent to the Christian Anti-Communism Crusade, P.O. Box 890, Long Beach, California. I urge you to secure these and not only read them, but study them thoroughly so that you may be prepared to intelligently discuss the subject.

The work is now world-wide in scope, and we are supporting National Christian Anti-Communisms in India and publishing and broadcasting in many other countries. Our motto has been "Act first, and talk about it later," so, unfortunately, we do not have available beautifully prepared, expensive publications concerning ourselves.

The officers of the Christian Anti-Communism Crusade are on the last page. You may write to any of them personally or investigate them in any way.

Recently our work took a big stride forward, when the Allen-Bradley Company of Milwaukee, under the leadership of the Chairman of the Board, Mr. Harry Bradley, published my testimony on the Communist Mind, given to the House Un-America Activities Committee in a large number of major newspapers in America. The response to this message has been overwhelming. The Allen-Bradley Company provides copies for interested people, 25 to an individual, and unlimited copies to churches and schools. The demand has been such that well over a half million copies have been sent out in answer to requests. It is now being taught in many high schools and on College campuses.

It has been translated into Spanish, and we are trusting we may be able to distribute it to the students of the Universities of Central and South America. It has been translated into Chinese. The Chinese Christian Anti-Communism Crusade has been formed and they are distributing it on Mainland China through the medium of the Free China Air Force. It has been translated into Malayalam, the language of Kerala, the Communist controlled state in India, and it is having a very wide distribution. We are grateful to God for the action of the Allen-Bradley Company in initiating this tremendous service.

We welcome new members to the Christian Anti-Communism Crusade. You can do much to help us, and we have much to learn from you. We need you. Annual membership is \$10 a year, life membership, \$100. The Crusade is still in its infancy. By God's grace, a virile future is ahead. Please write for any further information you may desire and, when your questions are answered, give your practical support.

Fred C. Schwarz, Executive Director

## **WHAT CAN I DO?**

Frequently the question is asked, "What can I do?" After attending a seminar conducted by our secretary, Bill Strube, one man provided an answer by outlining what he had done. Here is his answer:

Already have written Congressmen.  
 Written Radio Station on an Editorial  
 Written two letters to Newspapers  
 Sent out literature  
 Wrote for 25 copies of the testimony of Dr. Schwarz published by the Allen-Bradley Company  
 Passed out same and instructed others to do the same  
 Wrote for books on Communism from Government Printing Office  
 Read all the notes and books I secured at the Seminar  
 Attended a "Study Group" meeting with Mr. Spurlock  
 Trying to get a study group going in a Methodist Church in Minnesota through my father  
 Publicized the two Seminars now in progress  
 Will take my office force to Seminar or rather to the talk Mr. Strube will give at Pasadena Parent-Teacher Association  
 Will attend Seminar at Chimney Rock Church and bring a friend Thursday night  
 Wrote 90 letters to friends publicizing the last Seminar and Dr. Schwarz's talk at the University of Houston.  
 Making plans to start a study group, etc.

Frank A. Vuller

## **STUDY GROUPS**

Study groups are springing up everywhere. We only know of the existence of a few of them. We hope to start publishing a quarterly report on the activities of study groups this fall. We wish to list all groups so that they can contact each other and interchange ideas. To help us in this project please fill in and return the following information:

NAME OF GROUP

GROUP LEADER

MAIL ADDRESS – STREET

MAIL ADDRESS – CITY AND STATE

MEETING DAYS AND TIME

## **FINANCE**

It is obvious that a program such as we are carrying out requires constant and growing financial support. A contribution to our work is a real investment in Gospel of Christ and the preservation of home and family, church, and national and individual liberty. With confidence we ask you to continue to stand by us in this battle. The magnitude of the challenge demands mighty faith, magnificent courage, and complete Christian dedication. "Be not weary in well doing for in due time we shall reap if we faint not," is the promise of our Lord.
